German Engineered

Washing and drying like professionals.

Introducing the HomeProfessional series from Bosch.

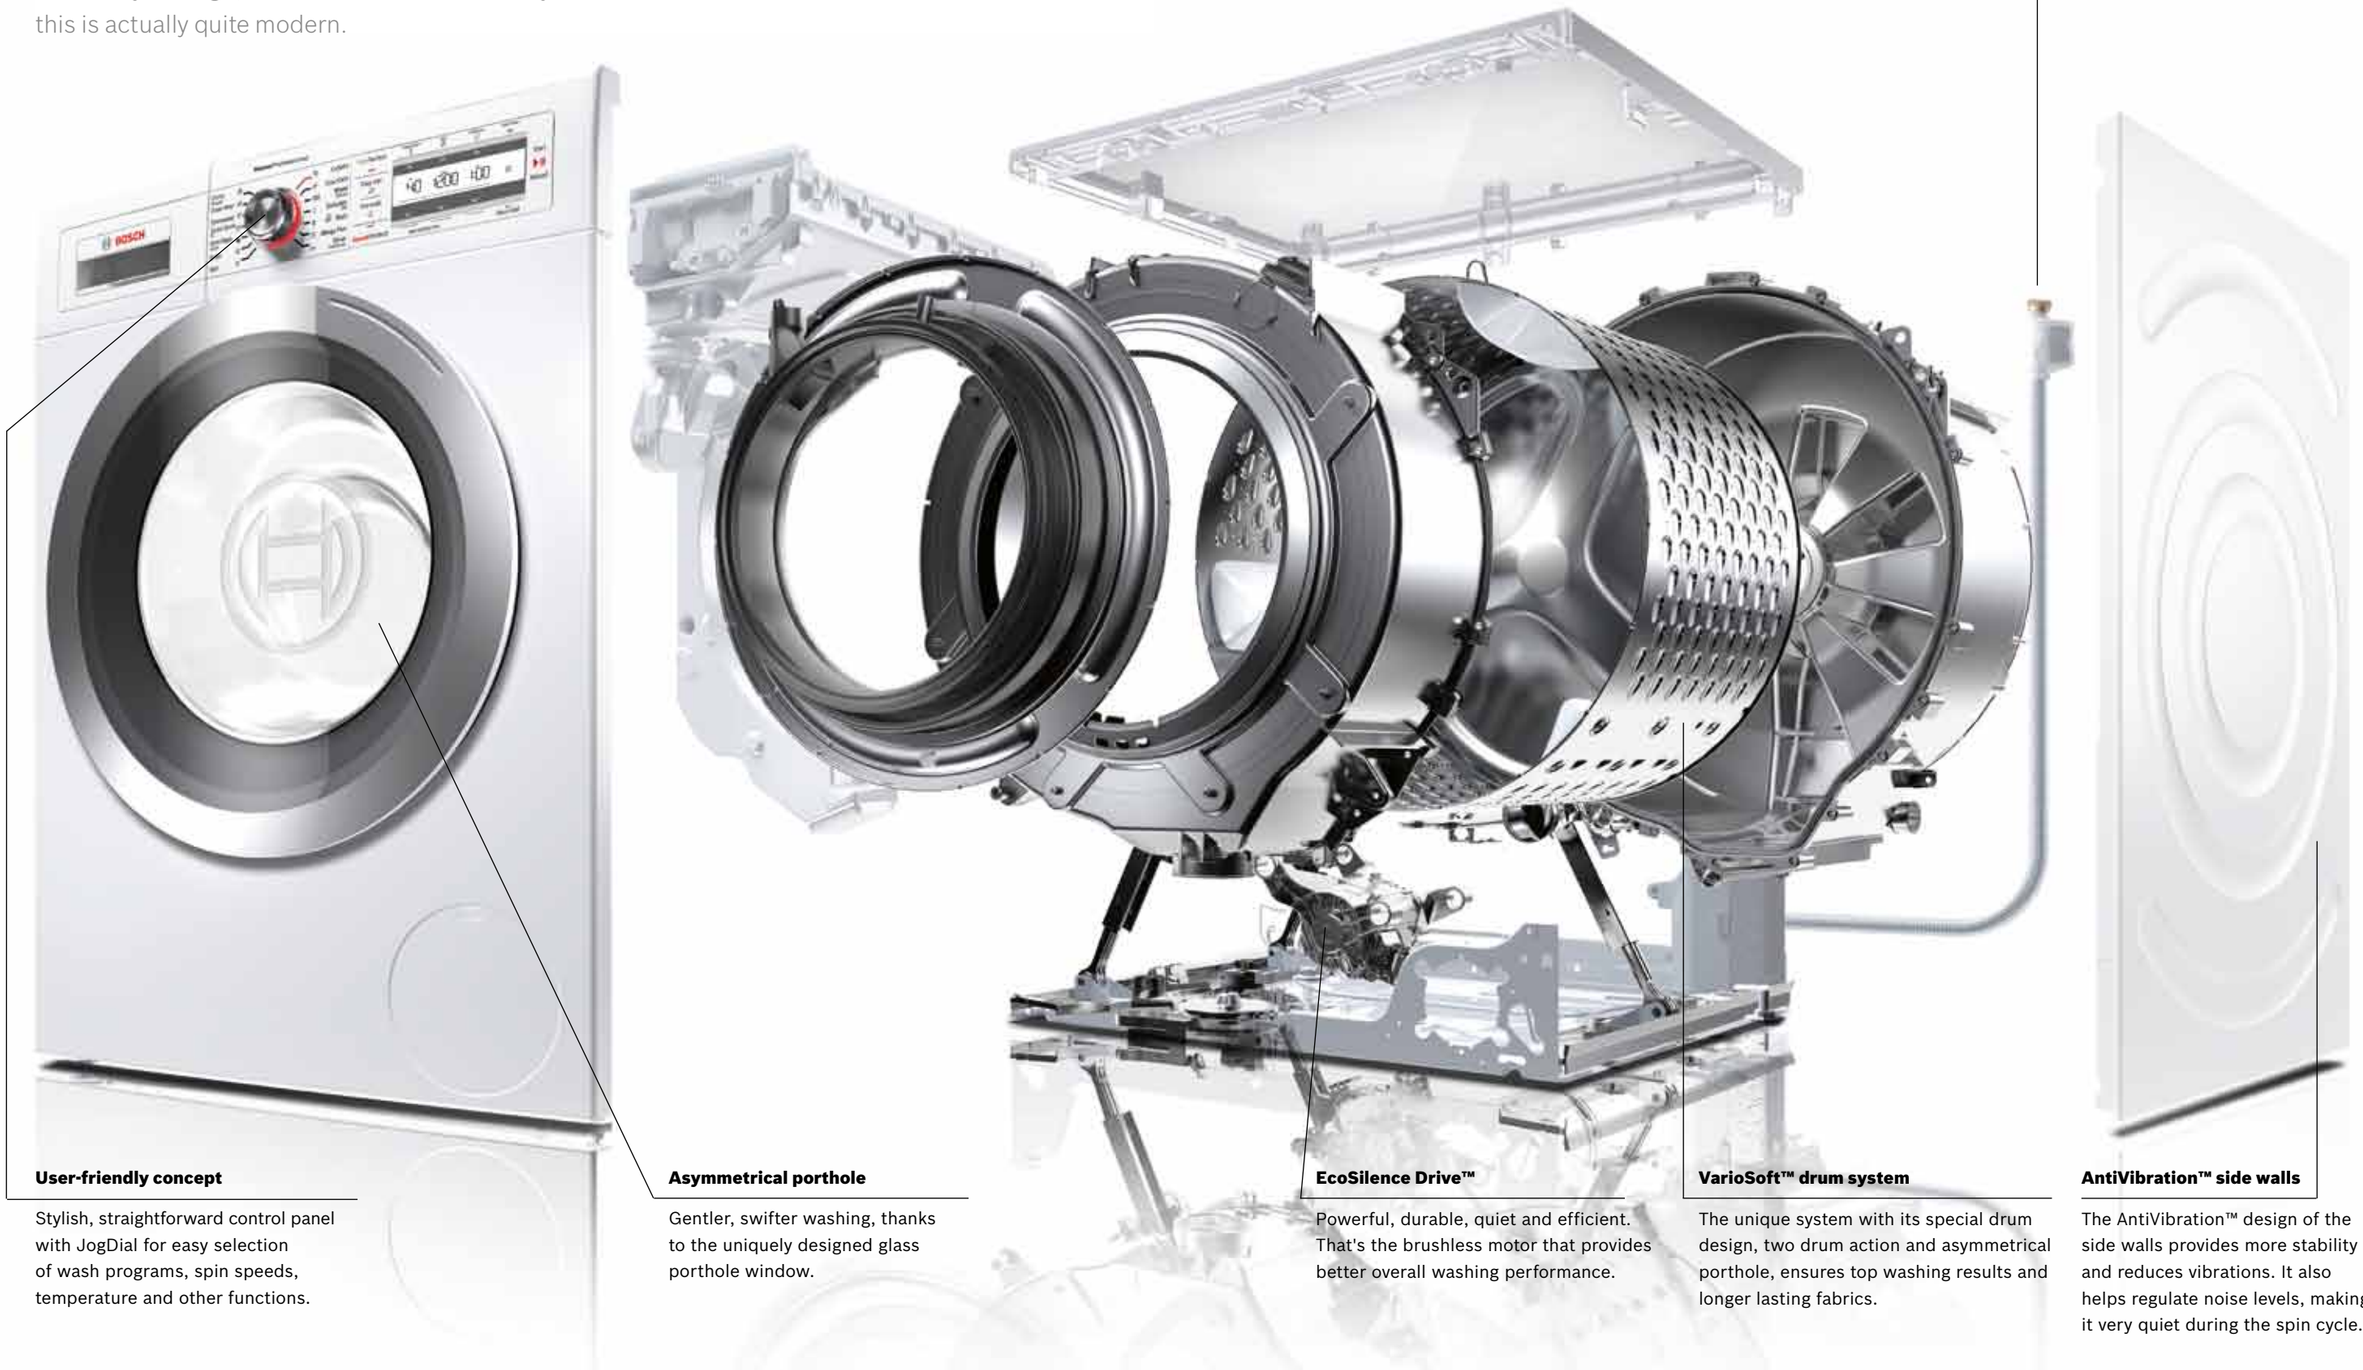
Edition 2013

www.bosch-home.com.au

BOSCH
Invented for life

HomeProfessional

Even if it does sound old-fashioned, at Bosch we are still building our appliances the way we did 125 years ago. Our standards have always remained the same: nothing leaves our factory until it is 100% perfect in terms of quality, performance and sustainability. That is why we also sometimes take more time to research, develop and test our appliances. We have remained true to the principle of Robert Bosch all those years ago; we would rather lose money than the trust of our customers. And we think that this is actually quite modern.



Sensor technology

A network of intelligent sensors automatically control the wash process that not only ensures perfect wash results, but minimal water and energy consumption.

AquaStop™ with guarantee

The AquaStop™ system provides 100% protection against water damage. Bosch guarantees it for the entire service life of the appliance.

ActiveWater™ technology

An automatic load sensing function, which adapts the water consumption to the relevant load size. This means that 1 kg of laundry can be washed just as efficiently as a full 8 kg load.

User-friendly concept

Stylish, straightforward control panel with JogDial for easy selection of wash programs, spin speeds, temperature and other functions.

Asymmetrical porthole

Gentler, swifter washing, thanks to the uniquely designed glass porthole window.

EcoSilence Drive™

Powerful, durable, quiet and efficient. That's the brushless motor that provides better overall washing performance.

VarioSoft™ drum system

The unique system with its special drum design, two drum action and asymmetrical porthole, ensures top washing results and longer lasting fabrics.

AntiVibration™ side walls

The AntiVibration™ design of the side walls provides more stability and reduces vibrations. It also helps regulate noise levels, making it very quiet during the spin cycle.

Wash programs

The Bosch HomeProfessional has the perfect program for all types of textiles. Be it your new jeans, woollen garments or favourite party dress, Bosch offers a number of special programs to provide the ultimate in garment care and convenience.

HomeProfessional

HomeProfessional wash programs

On top of several wash programs, the HomeProfessional series also offers the following special programs.

Allergy Plus
A higher water level, extra rinse cycles and a higher water temperature (e.g. 60°C) wash away detergent residues left in the laundry for exceptional hygienic cleaning. Good news for those with sensitive skin.

Down Wear
Down feathers are optimally moistened and washed gently. Down quilts also have ample room in the large VarioSoft™ drum.

Express 15/Super Quick 15
A short wash program of approximately 15 minutes for up to 2 kg of lightly soiled washing. Packing in a wash, two rinse cycles and improved rinse spinning, this is one of the shortest complete wash programs.

PowerWash 60
The PowerWash 60 program for medium soiled loads for up to 5 kg, provides excellent wash results in just 60 minutes.

Wool Program
The wool program is tailored to give the optimum treatment for wool garments. It offers a gentle wash action at an optimum temperature of 30°C. The gentle spin at the end of the cycle extracts water gently, which helps garments retain their shape.

Shirts/Blouses
This program is ideal for 2 kg of shirts and blouses. The gentle spin cycle makes ironing effortless and for greater convenience, no-iron shirts can simply be hung to dry.

Delicate/Silk Program
A wash program suitable for silks, delicate viscose and synthetic items. The standard wash temperature is preselected at 30°C, and depending on the fabric wash instructions, may be increased to 40°C or even reduced to a cold wash to provide a temperature-controlled wash.

Reload Function
Reload Function allows you to add additional items of laundry after the program has started if it is within safe water and temperature levels.

Sportswear
The Sportswear wash program is designed specifically for functional and sports fabrics with micro-fibre technology, like those used for gym, cycling or jogging. The program offers two rinse cycles with a gentle washing action for greater fabric protection.

Dark Load
Dark clothes, particularly jeans, often need special treatment. The Dark Load program features low water temperatures, which provide better wash results for darker garments. The gentle washing action helps protect fibres against bleeding and keeps dark clothes looking new. During the spin intervals, a small amount of residual moisture in the fabric prevents the laundry from creasing, which helps reduce ironing time.

Mixed Load
A program designed to wash mixed fabrics of up to 3 kg in less than 60 minutes. Ideal for garments that need to be washed urgently, without the need to wait for a full load.

Pre-wash
For stubborn stains or heavily soiled garments, a prewash will loosen dirt and remove it prior to the main wash.

Eco
For even greater efficiency, Bosch has developed a program for the resource-savvy. On selected models, the Eco Wash program offers an initial 60 minute wash cycle before the first rinse. Ideal for light-to-medium soiled garments, the longer wash reduces resource consumption, while still providing impressive wash results.

Easy Iron
Clothes are tumbled gently during the normal program spin cycle and then at the end of the spin phase. This keeps laundry fluffy and tangle-free for reduced creasing and easy ironing.

Features vary depending on models.

Drying features

The Bosch HomeProfessional heat pump dryer is the perfect complement to any laundry.

HomeProfessional

HomeProfessional drying features

On top of several drying features, the HomeProfessional dryer also offers the following special programs.

Towels
Even heavy textiles are fully dried thanks to moisture-controlled programs in which the degree of moisture remaining is constantly measured, so bath robes and hand towels, come out soft and fluffy.

Down Wear
This special drying program is a moisture-controlled program with interval spinning. It dries up to 1.5 kg of down textiles to feather-light perfection without the addition of agitating aids (e.g. tennis balls).

Condenser
Condenser dryers collect the condensed water vapour that occurs during the drying process in an easy-to-access container. As a result, they do not require external wall ventilation.

Low Heat Delicates
Bosch dryers have an innovative low heat feature that protects temperature-sensitive textiles by automatically reducing the heat and extending the drying time.

Timer
The time remaining display shows the remaining drying time, while the delay function can delay the program start time between 60 minutes and 24 hours.

Sensor Care
The built-in Sensor Care electronics monitor the moisture levels throughout the drying cycle, while the Sensitive Drying System offers the perfect drying programs for your garments. With gentle handling, improved airing and less creasing, the results are simply perfect.

Reduced Ironing
The reduced ironing feature with two setting options helps reduce creasing and extends the anti-creasing phase once the program has ended.

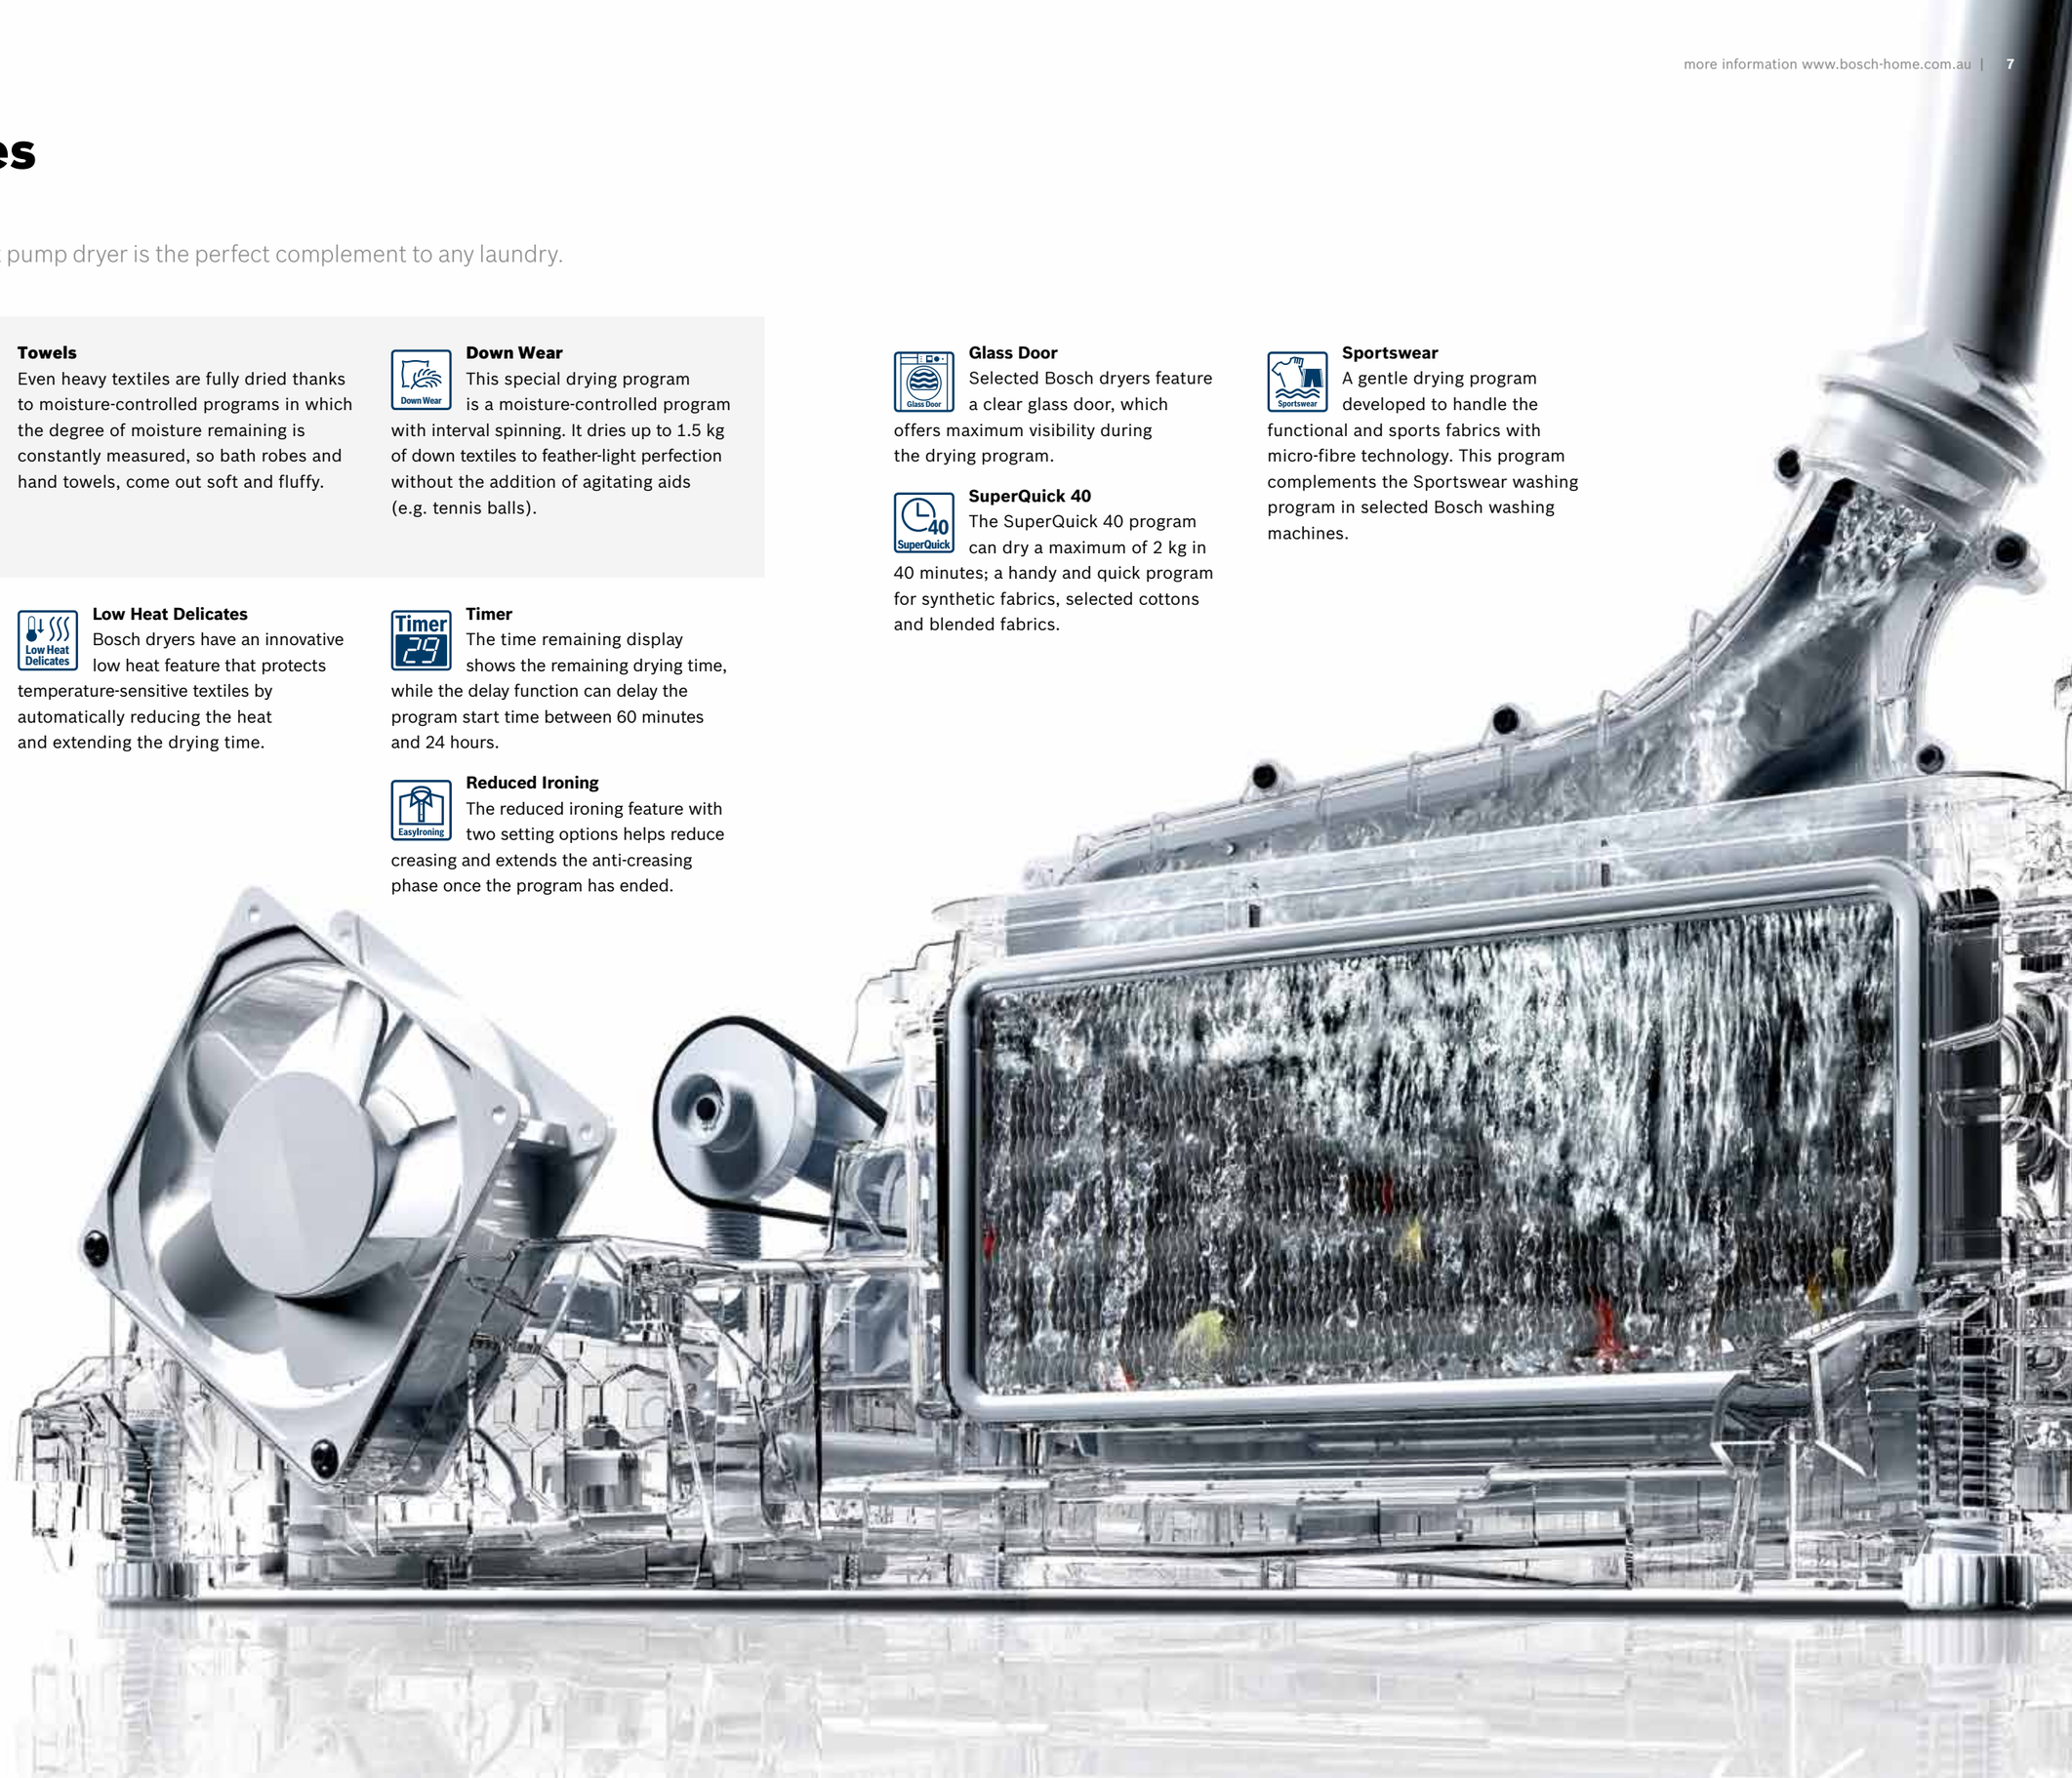
SelfCleaning Condenser
For maximum convenience, the condenser is automatically cleaned up to four times during the drying cycle. This eliminates manual cleaning, which is required by conventional condenser dryers.

Sensitive Drying System
The Sensitive Drying System from Bosch is designed to pamper your clothes. With a large interior and a sculptured drum surface, your washing is penetrated by a constant flow of gentle air from all sides. The unique SoftFlow® paddles rotate individual garments to take the rough out of the tumble and provide even drying results.

Glass Door
Selected Bosch dryers feature a clear glass door, which offers maximum visibility during the drying program.

SuperQuick 40
The SuperQuick 40 program can dry a maximum of 2 kg in 40 minutes; a handy and quick program for synthetic fabrics, selected cottons and blended fabrics.

Sportswear
A gentle drying program developed to handle the functional and sports fabrics with micro-fibre technology. This program complements the Sportswear washing program in selected Bosch washing machines.



Features vary depending on models.

HomeProfessional

The dryer that is 33% more economical than the qualifying limit for 6 star energy rated dryers.

Green Technology inside

SpeedPerfect

The SpeedPerfect option can be added to practically every drying program for perfect, gently dried laundry in record time. Select SpeedPerfect, for instance, to dry a 3.5 kg load of easy-care garments to 'cupboard dry' in just 36 minutes.

100%

drying efficiency with the EcoSilence Compressor

The centerpiece of the HomeProfessional dryer is the EcoSilence Compressor. Thanks to advanced technology, it compresses the refrigerant at high speed, which produces superior drying results no matter whether you wish to dry items extra fast or more economically.

33%

more economical than the qualifying limit for 6 star energy rated dyers

Save even more energy with the add-on EcoPerfect option, turning the HomeProfessional into one of Australia's most economical dryers.

44¢^

109 kwh / 52 x 0.21 (cents) per use

For the cost of one cup of coffee (an average coffee costs $3.50), the HomeProfessional dryer can dry over 7 loads of washing.

^www.energyrating.gov.au Cost based on current Victorian average for electricity as at March 2013, excluding service charges (44 cents per kWh).
Only applies to HomeProfessional WTY88700AU. Tariff given is a general rate and for exact cost, adjust to your local electricity tariff detailed by your energy provider.

WAY32540AU

HomeProfessional Front Loading Automatic Washing Machine

Capacity
- 8 kg capacity

Consumption rates
- 5 Star water rating, 57 litres per wash
- 4 Star energy rating, 320 kWh per year

Design
- Large 32 cm wide porthole and 180º opening Comfort door for easy loading and unloading
- LC clear text display with TouchControl buttons and JogDial with integrated on/off button

Wash Programs
- 14 programs with 4 special options: Prewash, Easy Iron, Extra Rinse and Rinse Hold
- Mixed fabrics
- Delicates/Silk program
- Wool
- Allergy Plus
- Rinse/Freshen up
- Dark Wash
- Super Quick 15
- Sportswear
- Down Wear
- Shirts/Blouses
- Start and reload function
- Cold fill

Performance
- 400 - 1600 rpm spin speed*
- EcoSilence Drive™ for faster, quieter and more energy efficient performance
- VarioPerfect® provides option for speed or energy efficiency
- ActiveWater™ technology with recommended detergent dosage and automatic load adjustment
- AntiVibration Design® for greater stability and quietness
- VarioSoft® drum system
- Foam detection with additional rinse cycle
- Automatic stabilisation

Safety
- AquaStop™ anti-flood protection
- Child lock
- Pump protector

Convenience
- Self-cleaning detergent drawer
- Time delay start
- Time remain indicator
- Audible end-of-cycle signal
- Very quiet operation

Dimensions (HxWxD)
- 850 x 600 x 590 mm

Optional: WTZ11400 Stacking kit – for seamless stacking of the HomeProfessional dryer on top of the HomeProfessional washing machine.

WTY88700AU

Home Professional ActiveAir Technology Condenser Dryer

Capacity
- 7 kg capacity

Consumption rates
- 6 Star energy rating, 109 kWh per year

Design
- Large 32 cm wide porthole and 180º opening Comfort door for easy loading and unloading
- TFT clear text display with TouchControl buttons and JogDial with integrated on/off button
- Glass door
- Large and easily accessible lint filter

Drying Programs
- 16 program
- Mixed fabrics
- Delicates/Silk program
- Timed programs
- Towels
- Super Quick 40 minute drying program
- Sportswear
- Down Wear
- Shirts/Blouses
- Easy Iron option

Performance
- ActiveAir technology
- Automatic self-cleaning condenser
- VarioPerfect® provides option for speed or energy efficiency
- AntiVibration Design® for greater stability and quietness
- Sensor drying
- Precise adjustment to the drying level
- Stainless steel drum with SoftFlow® paddles for less creasing
- Automatic anti-crease cycle (120 minutes)

Safety
- Automatic drum stop when door is opened
- Child Lock

Convenience
- TFT program progress display
- Warning indicators for lint filter and condensed water container
- Drum interior light
- Time delay start (1-24 hours)
- Time remain indicator
- Audible end-of-cycle signal
- Very quiet operation

Dimensions (HxWxD)
- 842 x 595 x 635 mm

All descriptions and technical diagrams are intended as a guide only. For additional technical information, full dimensional and installation details, please refer to the instruction and installation manuals supplied with the appliance. *To protect garment fibres, maximum spin speed available on cottons programs only.

This much is for sure: you can trust in our service.

Reliable, experienced, fast. The customer service of Bosch; before and after purchase.

Quality service straight from the manufacturer. Original Bosch.

We are committed to quality even when it comes to after-sales service because no one knows Bosch appliances better than our highly trained service engineers. Working with the latest equipment for measuring, diagnostics and repairs, Bosch service engineers only use original Bosch spare parts.

Reliability guaranteed. No compromises.

All Bosch home appliances are produced with maximum care with high-quality materials. We promise it in our 2-year manufacturer‘s warranty on all appliances.

Lifetime service. It goes without saying at Bosch.

Once your warranty period is over, we are still there to assist you. You can rely on expert care and first-rate service throughout the life cycle of your appliance. From missing instruction manuals to appliance repair – we take care of everything.

Original accessories. Effective care products.

Take a look at our extensive range of accessories for some inspiration: discover additional uses, replace old materials for optimum operation or simply give a trusty home appliance a good work-over. With the right care, you will be able to enjoy your high-quality appliance for many years to come. To help you do so, we offer a wide range of Bosch certified cleaning and care products.

Extensive customer service network. Just a call away.

Customer Care
Our friendly Bosch Customer Care team is on-hand to provide competent, reliable assistance. Before or after purchase, the Bosch team will be happy to advise you on products, their use and special functions.

Bosch Customer Care: 1300 368 339
Monday to Friday, 8:30am to 6:00pm.

Service & Repairs
Our team is there to provide the right advice on faults, arranging a visit of a service engineer and ordering the right accessories or spare parts.

Bosch Repairs & Service, Accessories and Spare Parts: 1300 360 447
Monday to Friday, 8:30am to 5:00pm.

Bosch HomeProfessional brochure is printed in an environmentally conscious way, using inks containing linseed oils and stock manufactured to high environmental standards.

This material is printed on HannoArt Silk, manufactured by Sappi Fine Paper in Germany. The pulp for this paper is sourced from certified and responsibly managed plantation forests. ISO14001 EMS and EMAS certifications. 48% of Sappi's global energy requirements come from renewable sources.

The print company has a strict environmental policy and they are an FSC®-certified print company. They use initiatives such as computer-to-plate technology, water/isopropyl alcohol reductions in printing presses and recycling throughout the organisation. This is in addition to the ink selection as discussed above and in their advice to all clients on the environmental implications of paper selection and usage.
